MAN THREATENS TO DYNAMITE Y. W. C. A.

Tells Miss Strong that He Left Valuable Papers in Metal Box in Wall of Building.

WOULD DYNAMITE TO GET THEM

A threat to dynamite the Young Women's Christian association building at Seventeenth street and St. Mary's avenue was made by a man who Tuesday afternoon invaded the private office of Miss Lily M. Strong, general secretary.

However, Miss Strong and the other officers and secretaries of the association did not become alarmed. They sided up the man as slightly demented and succeeded in sending him away after an interview.

He asserted that he worked as a bricklayer on the building, while it was being erected some years ago. In the course of the work, he said, he had placed valuable papers and a photograph of his wife in a metal box in a corner of the wall. Now he must have permission to dig out the papers and the pictures, he declared, or else he would dynamite the wall to get them.

By diplomatic handling the stranger and his peculiar notion, Miss Strong managed to rid the building of him without any disturbance, and the fact that he had made the threat to her to dynamite the place did not become known to the hundreds of girls and women who were in the building.

NO KILLING FROSTS VISIT THE STATE

Reports Show that the Weather is Warming and that Immediate Danger is Passed.

CORN STILL HAS A CHANCE

According to station reports sent to headquarters of all the railroads, there was no frost in Nebraska Tuesday night. However, out through Hall and Howard counties the temperature got dangerously near the frost line.

No Frost Reported.

Grand Island, St. Paul, Loup City, Wood River and several stations reported 35 to 38 above zero, but all agents asserted there was no frost, adding that it was cloudy during the night and that generally there was a wind that was brisk to strong. Through the southern part of the state, according to railroad reports, temperatures during the night were from 30 to 40 above. In western Nebraska and eastern Wyoming it was still warmer, though up in the Black Hills temperatures dropped to as low as 24 above zero. The thermometer at the weather bureau station on the federal building showed 45 degrees as the lowest temperature reached Tuesday night.

Light frosts appeared in upper parts of the state, according to the weather bureau, but nothing injurious was reported in Nebraska, and warmer weather is said to be on the way. Freezing temperatures were reported in Wyoming, and heavy frosts in North Dakota and Minnesota.

"It has been nearly a year since I have been in Omaha, and the changes are so great that I hardly knew the place when I came up Farnam street.
